1 Introduction

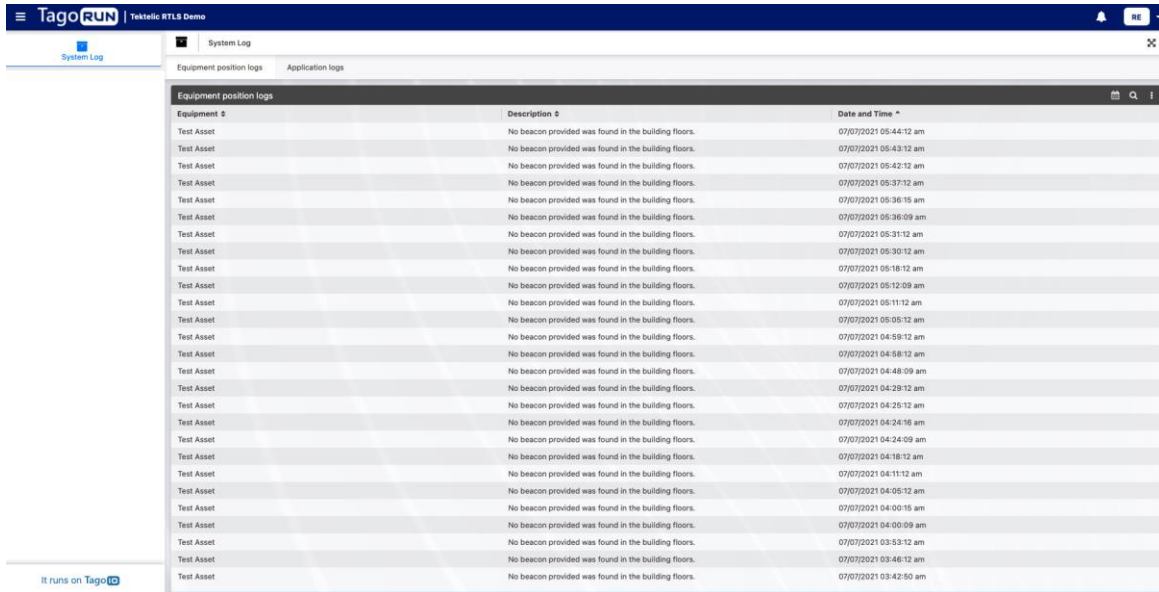

The purpose of this document is to describe the use of Tektelic's Locus Application as a Report Admin. It describes the steps involved in performing the main tasks for this role.

To use the application, access the link <https://tektelic-rtls.run.tago.io/> and log in as a Report Admin.

2 Report Admin

Can only see logs of the application and equipment position.

2.1 Report Admin view

The screenshot shows the TagoRUN interface with the 'System Log' tab selected. The 'Equipment position logs' section is active, displaying a table with the following columns: Equipment, Description, and Date and Time. The table contains 20 rows of log entries, all indicating that no beacon was found in the building floors.

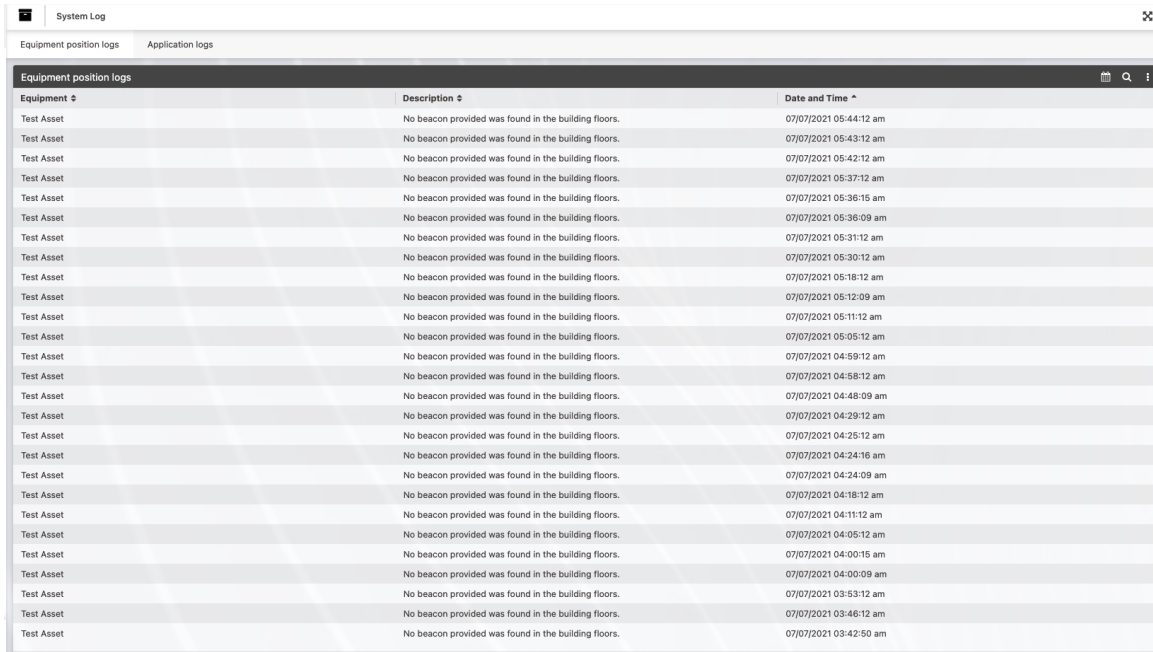

Equipment	Description	Date and Time

Figure 1: Initial view

2.2 Report Admin main tasks

- Viewing system and event logs
- Exporting system and event logs

2.1 Viewing logs

The screenshot shows a web interface for 'System Log'. It has two tabs: 'Equipment position logs' (selected) and 'Application logs'. Below the tabs is a table with the following columns: 'Equipment', 'Description', and 'Date and Time'. The table contains 20 rows of log entries, all with the description 'No beacon provided was found in the building floors.' and dates ranging from 07/07/2021 05:44:12 am to 07/07/2021 03:42:50 am.

Equipment	Description	Date and Time
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:44:12 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:43:12 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:42:12 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:37:12 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:36:15 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:36:09 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:31:12 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:30:12 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:18:12 am
Test Asset	No beacon provided was found in the building floors.	07/07/2021 05:12:09 am

Figure 2: System log dashboard

System and event logs are accessed by clicking on the System Log button in the left-hand navigation bar. The logs are presented under two tabs: “Equipment position logs” and “Application logs”. Logs can be filtered by date using the calendar icon on the list title bar. Equipment logs can be searched by Equipment, Description or Date. Application logs can be searched by User Description or Date.

2.2 Exporting logs

All tables in the system can generate CSV or XLSX reports.

To generate a report, click on the three dots of any table and select the “Export” option. Then click on which type of file you want to download.
